Art Unit: 3632

This is the second office action for serial number 09/814,126, entitled Bracket For Mounting Auxiliary Machinery to Vehicle Body.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Curtindale 6,003,928. Curtindale discloses a first bracket (41) with shaft supporting portion (45) and engaging portion (55), a second bracket with engagement portion (99), and fixing means (121). Curtindale discloses that the engaging portion (55) is adapted so that the engagement portion (99) is slidably inserted into the engaging portion (55) when the second bracket is rotated the portions slidably engage one another. Curtindale discloses all of the limitations of the claimed invention except for the engagement portion adapted so that the engaging portion is slidably inserted into the engagement portion. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have made the engagement portion adapted so that the engaging portions is slidably inserted into the engagement portion, since it has been held that a mere

reversal of the essential working parts of a device involves only routine skill in the art. *In re Einstein*, 8 USPQ 167.

### **Allowable Subject Matter**

Claims 11-14 are allowed.

### ***Response to Arguments***

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

### **Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 3632

will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
